

European ERA4CS Joint Call for Transnational Collaborative Research Projects 2016

Topic B - Researching and Advancing Climate Service Development by Institutional integration

Research Performing Organisation: National Meteorological Administration (Meteo-Ro)

Notice: Depending on all conditions of eligibility and peer review being met, the budget earmarked collectively by the participating National Meteorological Administration for this call will be up to 177313 € (according to exchange rates at time of funding).

The official call announcement has been published on the National Meteorological Administration website. Details of the call and the application process are provided via the www.era4cs.eu website. Applicants are required to contact their Research Performing Organisation Contact Point before starting to prepare proposals for application. For National Meteorological Administration enquiries please see contact information below.

Eligibility and funding modalities:

1. Principal investigator and his core team members should work full time at the National Meteorological Administration with permanent employment contracts;
2. Principal investigator should hold a Doctor degree.

Proposals of sub-topic(s):

B.1: Development of new methods and tools

B.2: Impacts studies and models

B.3: Localization of Climate Information and Uncertainties Evaluation

are eligible for National Meteorological Administration funding.

National Meteorological Administration will fund up to 177.313 k€ per proposals.

Proposals focussing on areas within sub-topics, which contribute with improved knowledge to climate adaptation planning in Romania, will be favoured.

It is expected that applications to this call will be Collaborative Research Grants with the consortium composition as defined in the call document, and National Meteorological Administration will fund the National Meteorological Administration researcher of any successful trans-national collaboration, according to the general rules stated in the call.

Funding plan should be drafted in accordance with H2020 financial rules.
